K H. Ramli, South Jakarta, Jakarta

PROFESSIONAL SUMMARY

AREA OF INTEREST : Business Analyst, IT Project Management, UI/UX DESIGN, Data Analyst, QA

Recent Computer Science graduate with experience as a Business Analyst, adept at aligning Business Requirement Documents (BRD) with business goals through detailed research and analysis. Managed and delivered design solutions for five projects, utilizing Scrum methodologies and tools like Jira and Figma, while leading cross-functional teams to ensure successful project outcomes. Proficient in project and product management, manual unit testing, and driving product development, with a focus on enhancing business processes and improving user satisfaction.

EDUCATION

Bina Nusantara University   West Jakarta, Jakarta

Bachelor of Computer Science (*3.62*/4.00)   Sept 2020 - Aug 2024

Research: Analysis of the Potential for Solar Panel Development on House Roofs in West Jakarta, Indonesia using GIS Applications and the Mask R-CNN Model

Technical Skills: CSS, HTML, Js, Next. Js, GoLang, SQL, Python   **Tools:** Big Query, Google Colab, Looker, Excel, Jira, Figma

Analytical Skills: Data Cleansing, ERD, Data Visualization, DML. **Project Management:** Scrum, Effort Estimation, Gantt Chart, DDL, Data Prediction, Classification   Flow Diagram, BRD, FSD, UAT, Requirements Gathering

WORK EXPERIENCE

CARE Technologies   South Jakarta, Jakarta

Product Management   Oct 2024 - Present

- **Product Lifecycle Management:** Led product lifecycle planning, aligning with evolving business goals and requirements. Currently managing two clients, ensuring both meet company objectives and client expectations. Automated task distribution using Power Automate to boost operational efficiency.
- **Bug Analysis & Solution Delivery:** Collaborated with business units to conduct in-depth investigation of bug reports, including detailed analysis, issue resolution, and timely delivery of tailored remedies to improve product reliability through user-centric problem addressing. Utilized SQL queries for data validation and bug tracking, ensuring accuracy in bug identification and resolution efforts.
- **Cross-Functional Collaboration:** Facilitated communication between business users and technical teams, translating business requirements into actionable technical solutions. Developed new product features based on user feedback and thorough testing, ensuring alignment with business objectives and enhancing product quality.
- **Quality Assurance:** Established and implemented robust quality control frameworks to optimize product performance, minimize errors, and ensure consistent delivery of high-quality solutions. Conducted unit testing and oversaw user acceptance testing (UAT) to ensure project success.
- **Project Management:** Managed project timelines and ensured adherence to deadlines through effective coordination and task distribution across team members, facilitating successful project completion within the designated timeframe.

Problem-Solving Skills, Effort Estimation, IT Project Management, Quality Assurance | *Microsoft Office, Power Automate*

Kalbe Consumer Health   North Jakarta, Jakarta

Business Analyst Intern   Feb 2023 - Feb 2024

- **Research and Problem Identification:** Conducted thorough research to identify project challenges and ensured Business Requirement Documents (BRD) were aligned with business needs. Have knowledge about RESTful API concepts to meet software requirements and facilitate seamless integration with business processes.
- **Design Solution:** Developed design solutions for 5 projects, creating mock-ups for Functional Specification Documents (FSD) using Figma, while ensuring alignment with database design principles and technical requirements.
- **Project Management:** Utilized planning and organizational skills to create comprehensive project documentation, including detailed schedules. Ensured adherence to timelines through Scrum methodology using sprints in JIRA, successfully managing data migration and customer lifecycle strategies.
- **Team Coordination:** Demonstrated strong communication and leadership skills by coordinating efforts across 3 cross-functional teams and a 4-member development team, ensuring seamless alignment of business needs with technology solutions.
- **Unit Testing:** Developed unit testing flows and performed manual unit testing across all projects, ensuring the integrity and functionality of solutions in alignment with project and business objectives during UAT.
- **Report Preparation and Presentation:** Utilized problem-solving and presentation skills to develop and deliver insightful project status reports to stakeholders. Collaborated with over 3 cross-functional teams, ensuring that project deliverables were aligned with strategic goals in business contexts. Additionally, created user guides to provide clear tutorials for application usage.

ORGANISATIONAL EXPERIENCE

Generation Girl Chapter Tanggerang (*Yayasan Generasi Maju Berkarya*)　　　Tangerang, Banten
Head of Curiculum and Mentor　　　Feb 2025 - Present

- **Program Management:** Collaborated with cross-functional teams to ensure smooth execution of educational programs, workshops, and events. Ensured alignment of curriculum content with program objectives and participant needs.
- **Performance Monitoring:** Regularly assessed participant progress through evaluations and feedback mechanisms. Adapted curriculum strategies based on results and participant feedback.
- **Event Coordination:** Planned and managed events with targeted objectives, sourced suitable mentors, and collaborated with mentors to develop event-specific materials.

Team Leadership, Time Management, Communication, Problem Solving | *Microsoft Office*

OTHER PROJECT

Klinik Go　　　April 2025 - Present
System Analyst

- Participated in a bootcamp project-based internship as a System Analyst at Klinikgo through Rakamin, involving system analysis, database and UI/UX design.

SDLC, Database Design System Planning, System Analysis and Design, System Implementation | *Figma, Microsoft Visio, Draw.io*

CERTIFICATION

Dicoding Bangun Negeri ✅　　　2024
Project Management basics course about Project Management Cycle and Methodology.
Project Management, Project Timeline, Effort Estimation, Structure Organization

UI/UX Course Perempuan Inovasi ✅　　　2024
UI/UX basics course from design thinking to creating a design website.
Design Thinking, Communication Design, User Experience, User Interface | *Figma*

DBS Foundation Coding Camp Machine Learning ✅✅✅　　　2024
Machine Learning basics course, especially for object detection.
Python, Machine Learning, Excel | *Google Colab*

FGA x BINAR Academy Data Science ✅　　　2024
Data Science course that provides experience in analyzing and predicting data.
SQL, Python, Machine Learning, Data Cleansing, Data Visualization | *Big Query, Looker, Google Colab*

Dibimbing.id Back End Web Development ✅　　　2022
Learn Back End Web Development using Express Js
Python, Machine Learning | *Google Colab*

KMMI Course ITENAS Artificial Intelligence ✅　　　2021
AI course that learned about artificial intelligence to machine learning, as well as machine learning models.
Python, Machine Learning | *Google Colab*
